SUMMARY

Edward Thapelo Hlapane is a seasoned IT specialist and cloud systems expert with a robust background in network administration, cybersecurity, and artificial intelligence. His professional focus lies within knowledge based on operating systems, network architecture, cloud infrastructure, enterprise resource planning, particularly within the Odoo ERP ecosystem, project management, and IT infrastructure. Skills within me make me a formidable individual in the IT field. In my recent capacity as a cloud systems intern, I have built a consistent track record of optimizing and scaling complex ERP environments on Microsoft Azure. He is actively seeking opportunities to leverage his networking expertise and enthusiasm for incorporating open-source technology.

EDUCATION

The Independent Institute of Education (Rosebank College).

2022-2024

- Diploma in Information Technology (Network Management).” Passed with Distinction”.
- Completed a 360-credit NQF level 6 qualification., Information Technology.

WORK EXPERIENCE

1) Advanced Digital Skills Programme.

June 2025 -June 2026

CAPACITI, Johannesburg, Gauteng

- Cybersecurity Assessment (ADS4) I CAPACITI: Achieved a score of 84% (42/50) on January 1 5, 2026.
- Python Development & AI Foundations I CAPACITI: Achieved a score of 82.5% (33/40) on August 27, 2025.
- Security & AI (Certified in Cybersecurity): (CAPACITI/Coursera) and graduate of an intensive 8-week AI Bootcamp. Introduction to Artificial Intelligence I CAPACITI: Achieved a score of 73.33% (22/30) on August 7, 2025.
- Continuous Learning: Successfully transitioned from intensive technical bootcamps in AI and Cybersecurity directly into high-impact cloud internship roles.

2) Cloud Systems Intern

February 2026 - April 2026

TruCloudERP, Midrand, Gauteng

- ERP Optimization: Successfully mapped and documented internal reporting structures for TruCloudERP, streamlining module configurations and access rights.

- Technical Integration: Bridged the gap between enterprise software and cloud storage, optimizing performance for high-demand ERP environments.
- ERP Management: Specialized in scaling environments and managing Odoo V19 functional setups.
- Systems Administration: Handled database management via Odoo.sh and complex technical configuration.
- Security & Governance: Developed comprehensive Identity and Access Management (IAM) frameworks to ensure robust organizational security.

Achievement & Key Projects

- Optimized network configurations and upgraded infrastructure, resulting in improvement in network speed and reliability.
- Designed and implemented a comprehensive disaster recovery plan, reducing potential data loss.
- Lead a team within an IT project of 5 people. Overall result is a Distinction pass rate (>75%).
- Accomplished my tertiary certificate with a distinction.

SKILLS

- Artificial Intelligence & Development.
- Cybersecurity.
- ERP Expertise.
- Troubleshooting.
- IT Support.
- Leadership & Communication.
- Teamwork & Collaboration.
- Problem-Solving & Critical Thinking.
- Adaptability & Continuous Learning.
